### **USES AND DISCLOSURES OF PROTECTED HEALTH INFORMATION**

A use of PHI occurs *within* a covered entity (i.e., discussions among staff regarding treatment). A disclosure of PHI occurs when Dr. Anne Perry reveals PHI to an outside party (i.e., Dr. Perry provides another treatment provider with PHI, or shares PHI with a third party pursuant to a client's valid written authorization).

Dr. Perry may use and disclose PHI, without an individual's written authorization, for the following purposes:

1. Treatment: disclosing and using your PHI by those who are involved in your care for the purpose of providing, coordinating, or managing your health care treatment and related services. This includes consultation with clinical supervisors or other treatment team members and for coverage arrangements during your therapist's absence, and for sending appointment reminders or information about treatment alternatives or other health-related benefits and services that may be of interest to you.
2. Payment: disclosing and using your PHI so that Dr. Anne Perry can receive payment for the treatment services provided to you, such as: making a determination of eligibility or coverage for insurance benefits, processing claims with your insurance company, reviewing services provided to you to determine medical necessity, or undertaking utilization of review activities.
3. Health Care Operations: disclosing and using your PHI to support Dr. Anne Perry's business operations which may include but not be limited to: quality assessment activities, licensing, audits, and other business activities. Uses and disclosures for payment and health care operations purposes are subject to the minimum necessary requirement. This means that Dr. Perry may only use or disclose the minimum amount of PHI necessary for the purpose of the use or disclosure (i.e., for billing purposes Dr. Perry would not need to disclose a client's entire medical record in order to receive reimbursement. She would likely only need to include a service code and/or diagnosis etc.). Uses and disclosures for treatment purposes are not subject to the minimum necessary requirement.

Dr. Perry is required to promptly notify you of any breach that may have occurred and/or that may have compromised the privacy or security of your PHI. Confidentiality of client records and substance abuse client records maintained are protected by federal law and regulations. It is Dr. Anne Perry's policy that a client must complete an Authorization for Release of Protected Health Information it provides prior to disclosing health information to another individual and/or entity for any purpose, except for treatment, payment, or health care operations in accordance with this Notice of Privacy Policies.

Absent the above referenced form, other than for treatment, payment, or health care operations purposes, Dr. Perry is prohibited from disclosing or using any PHI outside of or within the organization, including disclosing that the client is in treatment without written authorization, unless one of the following exceptions arises:

1. Responding to lawsuit and legal actions (Disclosure by a court order, in response to a complaint filed against Dr. Perry, etc. This does not include a request by you or another party for your records).
2. Disclosure is made to medical personnel in a medical emergency or to qualified personnel for research, audit or program evaluation.
3. Help with public health and safety issues (Client commits or threatens to commit a crime at Dr. Perry's office; A minor or elderly client reports having been abused or there is reasonable suspicion that abuse has or will take place; Client is planning to harm another person, including but not limited to the harm of a child or at-risk elder; Client is imminently dangerous to self or others).
4. Address workers' compensation, law enforcement, and other government requests.
5. Respond to organ and tissue donation requests.

6. Business Associates: Dr. Perry may enter into contracts with business associates to provide billing, legal, auditing, and practice management services that are outside entities. In those situations, protected health information will be provided to those contractors as is needed to perform their contracted tasks. Business associates are required to enter into an agreement maintaining the privacy of the protected health information released to them.

7. In compliance with other state and/or federal laws and regulations.

The above exceptions are subject to several requirements under the Privacy Rule, including the minimum necessary requirement and applicable federal and state laws and regulations. See 45 C.F.R. § 164.512. Violation of these federal and state guidelines is a crime carrying both criminal and monetary penalties. Suspected violations may be reported to appropriate authorities, as listed above in the "Client Rights" section, in accordance with federal and state regulations. Know that Dr. Perry will never market or sell your personal information without your permission.

## **SPECIAL AUTHORIZATIONS**

Certain categories of information have extra protections by law, and thus require special written authorizations for disclosures.

### *Psychotherapy Notes:*

Dr. Perry may keep and maintain "Psychotherapy Notes", which may include but are not limited to notes she makes about your conversation during a private, group, joint, or family counseling session, which is kept separately from the rest of your record. These notes are given a greater degree of protection than PHI. These are not considered part of your "client record." She will obtain a special authorization before releasing your Psychotherapy Notes.

*HIV Information:* Special legal protections apply to HIV/AIDS related information. Dr. Perry will obtain a special written authorization from you before releasing information related to HIV/AIDS.

### *Alcohol and Drug Use Information:*

Special legal protections apply to information related to alcohol and drug use and treatment. Dr. Perry will obtain a special written authorization from you before releasing information related to alcohol and/or drug use/treatment.

You may revoke all such authorizations to release information (PHI, Psychotherapy Notes, HIV information, and/or Alcohol and Drug Use Information) at any time, provided each revocation is in writing, signed by you, and signed by a witness. You may not revoke an authorization to the extent that (1) Dr. Perry has relied on that authorization; or (2) if the authorization was obtained as a condition of obtaining insurance coverage, the law provides the insurer the right to contest the claim under the policy.

As a covered entity under the Privacy and Security Rules, Dr. Perry is required to reasonably safeguard PHI from impermissible uses and disclosures. Safeguards may include, but are not limited to the following:

1. Not leaving test results unattended where third parties without a need to know can view them.
2. Any PHI received as an employee, intern, or volunteer about a client or potential client, may not be used or disclosed for non-work purposes or with unauthorized individuals. Dr. Perry may only use and disclose such PHI as described above.

3. When speaking with a client about his or her PHI where third parties could possibly overhear, the conversation will be moved to a private area.
4. Seeking legal counsel in uncertain situations and/or incidences.
5. Obtaining a Business Associates Agreement with those third-parties that have access to and/or store client information. Some of the functions of the practice may be provided by contracts with business associates. For example, some of the billing, legal, auditing, and practice management services may be provided by contracting with outside entities to perform those services.
6. Implementing FAX security measures
